

price list

When ordering, please specify type of system, transmitter stick mode, frequency, and type or types of servos desired. Unless otherwise specified, orders for two-stick transmitters will be shipped as Mode II. Battery pack on three, four, and six channel systems will be KB-4E.

SYSTEMS

KP-4B	\$ 419.95
KP-4S	439.95
KP-6B	469.95
KP-6S	489.95

Includes transmitter, receiver, four servos, transmitter and receiver battery packs, charger, switch harness, frequency flags, and appropriate servo trays.

Type of servos, frequency, and transmitter stick mode is optional at same system price.

Control Stick Options — KP-4B and KP-6B only:

Left Stick	Right Stick
Mode I Elevator-Rudder	Throttle-Aileron
Mode II Throttle-Rudder	Elevator-Aileron
Single Stick — Elevator-Aileron-Rudder on one control stick.	

Optional dual conversion receiver KPR-6D may be ordered with any three, four or six channel system for an additional \$60.00.

Dual frequency option may be ordered with any system for an additional \$40.00. When ordering a unit with this option, add an "X" suffix to the model number: i.e., KP-4BX. Specify any two adjacent frequencies on the same band. Dual frequency is not available with 75.640 MHz or on any 53. MHz frequency, or on Dual Conversion Receiver KPR-6D.

KP-3B	\$ 209.95
KP-3S	219.95

Includes transmitter, receiver, two KPS-11A servos (other servos may be substituted for the two KPS-11A servos for an additional charge of \$5.00 each), transmitter and receiver rechargeable battery packs, charger, and switch harness.

Choice of frequency is optional at same system price.

An additional servo for the third channel is available at the retail prices shown.

Dual frequency option may be ordered with either system for an additional \$40.00. See instructions for four and six channel systems above.

KP-3B and KP-3S systems cannot be converted for additional channels.

KP-2B	\$ 119.95
KP-2S	129.95

Includes transmitter, receiver-servo package with switch harness, and KB-4D dry battery case. Batteries for transmitter and receiver are not included.

KP-2B and KP-2S systems are not available on 53. MHz frequencies.

Optional rechargeable battery pack and charger for the receiver-servo package are available for an additional \$30.95.

Dual frequency option may be ordered with either system for an additional \$40.00. See instructions for four and six channel systems above.

TRANSMITTERS

KPT-2B	\$ 44.95
KPT-2S	54.95
KPT-3B	104.95
KPT-3S	114.95
KPT-4B	164.95
KPT-4S	184.95
KPT-6B	194.95
KPT-6S	214.95

To order dual frequency option, add \$20.00 to prices shown and suffix "X" to model number.

RECEIVERS

KPR-2B . . . (Includes Battery Case)	\$ 79.95
KPR-3B	84.95
KPR-4B	94.95
KPR-6B	114.95
KPR-6D . . . (Dual Conversion)	174.95

To order dual frequency option, add \$20.00 to prices shown and suffix "X" to model number. Not available on dual conversion receiver KPR-6D.

FREQUENCIES Available in MHz

26.995	53.100	* 72.080
27.045	53.200	72.160
27.095	53.300	* 72.240
27.145	53.400	72.320
27.195	53.500	* 72.400
		72.960
		* 75.640

* model aircraft use only

BATTERY PACKS

KB-4D Wired Dry Battery Case	\$ 4.95
KB-4E 550 MAH	16.95
KB-4F 1 Amp. Hr.	29.95

CHARGER

KBC Transformer Battery Charger	\$ 14.95
---	----------

SWITCH HARNESS . . . (P/N 200-029)	\$ 5.95
--	---------

TRAINER CORD . . . (P/N 200-030)	\$ 6.95
--	---------

(This is required if trainer operation on four and six channel systems is desired.)

SERVOS

KPS-9	\$ 39.95
*KPS-10	\$ 39.95
KPS-11	\$ 39.95
*KPS-11A	\$ 35.95
*KPS-12	\$ 39.95

* Available in 180° at same price.

POSTAGE AND INSURANCE FEES

Are not included in above prices and will be added to the billing invoice.

CONVERSIONS

Dual Frequency

Existing Series Seventy and later systems modified for Dual Frequency	\$ 60.00
Adding Dual Frequency option to existing transmitter only	\$ 30.00
Adding Dual Frequency option to existing receiver only	\$ 30.00

Additional Channels

Four-channel units may be converted to six-channels for \$60.00. One channel will be switched type and the other channel will be lever type. Existing six channel systems may have one channel converted to a switched auxiliary channel for \$20.00.

Master-Trainer System

Gold Medal Series systems may be updated to Series Seventy and later Master-Trainer system for an additional \$25.00. Price includes Trainer Cord.

Prices for any conversion include thorough checkout, return postage and insurance. Price does not include any work necessary to return defective units to operating condition. Any charges necessary to repair units sent for conversion will be billed C.O.D. as a normal repair. Please include check or money order to cover cost of the conversion desired.
